BRAINSTORMING & IDEA PRIORITIZATION

DATE	1 October 2026
Team id	SWTID-2026-8237
Project name	Comic craft-AI comic story creator using gemini models
Maximum marks	3 marks

Step 1: Brainstorm and Idea Listing

The following ideas were identified for the Comic Craft project. The project focuses on converting user-provided story prompts into personalized comic stories with AI-generated narration, dialogue, illustrations, preview, and PDF export.

S.No	Team Member	Idea / Suggestion	Category	Group No.
1	Team Member 1	Generate personalized comic story outlines from user prompts using Gemini AI.	AI Story Generation	1
2	Team Member 2	Generate detailed narration and character dialogues for each comic panel.	AI Content Generation	1
3	Team Member 3	Generate comic-style illustrations for each panel using Stable Diffusion.	AI Image Generation	2

Step 2: Idea Prioritization

The grouped ideas were evaluated based on feasibility and importance. The ideas that are practical to implement and directly support the core Comic Craft workflow were selected as priorities.

Group No.	Final Idea	Feasibility (High/Medium/Low)	Importance (High/Medium/Low)	Priority Selected (Yes/No)
1	AI-based comic story outline, narration and dialogue generation using Gemini models.	High	High	Yes
2	AI-generated comic-style	Medium	High	Yes

	illustrations for individual panels using Stable Diffusion.			
3	Interactive frontend for user input and panel-by-panel comic preview.	High	High	Yes
4	PDF export of the completed comic with images and narration.	High	Medium	Yes

Final Selected Project Idea: Comic Craft – an AI-powered web application that transforms user prompts and preferences into personalized multi-panel comic stories, generates illustrations, provides a web preview, and exports the finished comic as a PDF.
