Feature Implementation Summary

Total Features Proposed	8
Total Features Implemented	8
Total Features Demonstrated	8
Overall Implementation Rate	100%

Project Note

ComicCraft is a web-based AI comic story creator. It accepts personalized story inputs, generates a structured five-panel outline using Gemini Flash, expands the story using Gemini Pro, creates comic-style illustrations using Stable Diffusion, builds the panel layout, provides a comic preview, and exports the completed comic as a downloadable PDF.
