Team Involvement in Demonstration:

This document records the active participation and roles of each team member during the Comic Craft project demonstration. The team members presented different parts of the system, including the project overview and architecture, AI models and core functionality, frontend, comic preview, PDF export, and deployment. Responsibilities were distributed across all three members.

Team Coordination Notes:

The three team members participated actively in the demonstration. The presentation followed the ComicCraft workflow from user input through AI-based story and image generation, comic preview, and PDF export. The team coordinated the sections to provide a clear demonstration of the project.
