Date	01 October 2026
Team id	SWTID-2026-8237
Project name	Comic craft-AI comic story creator using gemini models
Maximum marks	5 marks

	Functional Requirement / Epic	User Story Number	User Story / Task Story	Points	Priority	Team Members	Sprint Start Date	SprintEnd Date	(Planned)
t-1	Model Selection & Architecture	USN-1	As a project team,we can research and select suitable generative AI models for comic outlines,narration, dialogue,and illustrations.	3	High	TBD	TBD	TBD	Planned
t-1	Model Selection & Architecture	USN-2	As a project team,we can define the three-part architecture: HTML/CSS/Jinja2 frontend,FastAPI backend,and AI integration.	3	High	TBD	TBD	TBD	Planned
t-1	Development Environment	USN-3	As a developer,I can set up Python ,a virtual environment, required packages,project structure,and the local Unicorn server.	2	High	TBD	TBD	TBD	Planned
t-2	Core AI Functionality	USN-4	As a user,I can provide a story prompt,and receive a structured 5-panel comic outline with titles, scene descriptions and image prompts.	5	High	TBD	TBD	TBD	Planned
t-2	Core AI Functionality	USN-5	As a user,I can receive detailed comic narration,and character dialogue generated from the panel outline.	5	High	TBD	TBD	TBD	Planned
t-2	Core AI Functionality	USN-6	As a user,I can receive comic-style illustrations generated from the image prompts for each panel.	5	High	TBD	TBD	TBD	Planned
t-3	Backend &Routing	USN-7	As a user,I can submit story prompt,character name, setting,tone,and art style through the FastAPI application.	3	High	TBD	TBD	TBD	Planned
t-3	Backend &Routing	USN-8	As an API client, I can generate a comic through /generate-comic/json and receive layout data,and the PDF path.	3	Medium	TBD	TBD	TBD	Planned
t-3	Backend &Routing	USN-9	As a developer,I can test image generation independently using the /test-image route and handle errors gracefully.	2	Medium	TBD	TBD	TBD	Planned
t-4	Frontend Development	USN-10	As a user,I can enter story prompt,character, setting,tone,and art style in a clean web form.	3	High	TBD	TBD	TBD	Planned
t-4	Frontend Development	USN-11	As a user,I can view the generated comic panel-by-panel with title, image, scene description, captions and narration.	5	High	TBD	TBD	TBD	Planned
t-4	PDF Export	USN-12	As a user,I can download the complete comic as a multi-page PDF containing images and narrative text.	3	High	TBD	TBD	TBD	Planned
t-5	Deployment & Testing	USN-13	As a developer,I can configure environment variables for Gemini and HuggingFace credentials and install all required dependencies.	2	High	TBD	TBD	TBD	Planned
t-5	Deployment & Testing	USN-14	As a developer,I can run the ComicCraft application locally and verify the homepage,API documentation and comic-generation workflow.	3	High	TBD	TBD	TBD	Planned

tory points and priorities are planning estimates derived from the supplied ComicCraft workflow. The project source does not specify sprint dates or team-member names, so those fields are marked TBD.
